

ECOTOP BLEND 2

PRODUCT BENEFITS

- Organic-mineral NPK fertilizer; NPK(+Mg) 7-6-12 (+4).
- Fertilizer with emphasis on potassium.
- Contains both fast-acting and slow-acting nutrients for long-lasting action with rapid effect.
- Extra magnesium addition for deep green color and good photosynthesis.
- Contains organic material → formation of humus for better root formation and less leaching.
- Effect for up to 100 days.

PACKAGING

Bags 25 KG (40/pallet)
Big bag 500KG, 1000KG

FORM

Crumb, granulate
Pellet

DOSAGE

The exact dose depends on the needs of the plant, the time of application, the intensity of watering and the nutrient reserve in the soil.

VEGETABLES

- Cut flowers, roses, flowering plants
 - Planting 10-15 kg / 100 m²
 - Maintenance 8-12 kg / 100 m²
- Bulbous plants and other ornamental plants
 - Planting 8-12 kg / 100 m²
 - Maintenance 8-12 kg / 100 m²

ORNAMENTAL GARDEN

- Construction 10-15 kg / 100 m²
- Maintenance 8-12 kg / 100 m²

LAWN

- Construction 8-12 kg / 100 m²
- Maintenance 6-12 kg / 100 m²

SPORTS & GOLF

- Maintenance 8-12 kg / 100 m²
-

Product recommendations are informational only and do not lead to a commitment or agreement. Directions for use are based on practical experience and research. Each plant and cultivation system has its own fertilizer requirements. Legal (fertilizer) standards are also important in determining the dose. It is advisable (good practice) to test new applications on a small scale in advance each time. Fertilizers cause an EC increase and can affect pH. It is essential to take all these factors into account when using a fertilizer product or combining different fertilizers. Ecotop accepts no liability for consequential damages when using its products.
