

# ECOTOP BLEND 5

## PRODUCT BENEFITS

- Organic-mineral NPK fertilizer; NPK (+Mg) 7-13-9 (+2).
- Fertilizer with emphasis on phosphorus.
- Contains both fast-acting and slow-acting nutrients for a rapid effect with long after-effects.
- Enriched with magnesium for a deep green color and good photosynthesis.
- Ideal for rapid formation of roots.
- Contains organic material → formation of humus for better root formation and less leaching.
- Promotes mineral absorption.
- Effective for up to 100 days.

## PACKAGING

Bags 25 KG (40/pallet)

Big bag 500KG, 1000KG

## FORM

Crumb, granulate

Pellet

---

## DOSAGE

The exact dose depends on the needs of the plant, the time of application, the intensity of watering and the nutrient reserve in the soil.

### VEGETABLES

- Fruit & root crops 5-6 kg / 100 m<sup>2</sup>
- Leafy vegetables 3-5 kg / 100 m<sup>2</sup>
- Cabbage crops 5-6 kg / 100 m<sup>2</sup>

### FRUIT

- Apple, pear, etc. 3-5 kg / 100 m<sup>2</sup>

### TREE NURSERY (OPEN GROUND)

- Maintenance / Construction 3-5 kg / 100 m<sup>2</sup>

### FLORICULTURE (OPEN GROUND)

- Maintenance / Construction 4-8 kg / 100 m<sup>2</sup>

### LAWN

- Construction 5-7 kg / 100 m<sup>2</sup>
- Maintenance 3-7 kg / 100 m<sup>2</sup>

### SPORTS & GOLF

- Maintenance 3-7 kg / 100 m<sup>2</sup>
- 

Product recommendations are informational only and do not lead to a commitment or agreement. Directions for use are based on practical experience and research. Each plant and cultivation system has its own fertilizer requirements. Legal (fertilizer) standards are also important in determining the dose. It is advisable (good practice) to test new applications on a small scale in advance each time. Fertilizers cause an EC increase and can affect pH. It is essential to take all these factors into account when using a fertilizer product or combining different fertilizers. Ecotop accepts no liability for consequential damages when using its products.
