

ECOTOP ROCK POWDER

PRODUCT BENEFITS

- Rich in trace elements
- Increases resilience. Results in healthy, beautiful and strong plants.
- Promotes nutrient intake.
- Improves soil structure and soil fertility.
- Fine in use. Powder form.
- Approved for use in organic farming according to regulations (EU) No. 2018/848.

PACKAGING

Bagged goods
25KG (42/pallet)

Big Bag
250KG, 500KG, 750KG, 1000KG

DOSAGE

Ornamental / vegetable garden: 100-300 g / m²
Mixing with soil / potting soil: 10-20 g / liter

APPLICATION PERIOD

J F M A M J J A S O N D

COMPOSTITION

SiO ₂	43,0%	Co	53.0 mg/kg
Al ₂ O ₃	11.3%	Cr	25.0 mg/kg
TiO ₂	2.2%	Ni	60.0 mg/kg
CaO	9.0%	Cu	35.0 mg/kg
MgO	5.0%	Mn	990.0 mg/kg
Na ₂ O	4.5%	Zn	197.0 mg/kg
K ₂ O	0.5%	B	0.5 mg/kg
Fe ₂ O ₃	11.7%	Mo	13.6 mg/kg
P ₂ O ₅	0.6%		
S ₂ O ₂	0.5%	pH	8.7
CO ₂	10.5%		
And many other trace elements.			

NB

Store dry, frost-free and below 30 degrees.

Since Ecotop BV cannot control the use, storage and improper application of its products, no liability can be accepted for reduced performance or possible damage.

Product recommendations are informational only and do not lead to a commitment or agreement. Directions for use are based on practical experience and research. Each plant and cultivation system has its own fertilizer requirements. Legal (fertilizer) standards are also important in determining the dose. It is advisable (good practice) to test new applications on a small scale in advance each time. Fertilizers cause an EC increase and can affect pH. It is essential to take all these factors into account when using a fertilizer product or combining different fertilizers. Ecotop accepts no liability for consequential damages when using its products.
